2. Key Assumptions

We believe that corporate earnings will recover on the back of the government's economic stimulus measures and the correction of the yen's appreciation, and that customers' capacity utilization and capital investment will gradually recover, but it will take time for this to translate into earnings for the Company.

Water Treatment Chemicals Segment

- Domestic customers' capacity utilization will gradually recover
- Concern about a slowdown in economic growth in emerging countries

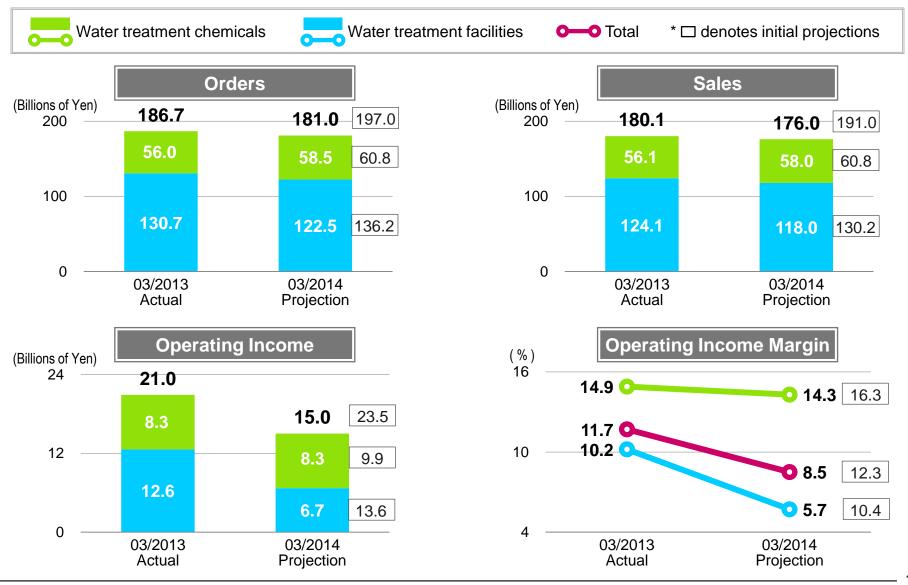

Water Treatment Facilities Segment

- There is some capital investment activity in the semiconductor/LCD industries, but the overall level is low
- Capital investment in general industries will be sluggish for the time being

4. Profitability Enhancement

Current Issues and Challenges

- Lower order prices due to fierce competition
- Lower profitability due to projects becoming smaller
- Additional costs

Initiatives

- Leverage the Group's comprehensive capabilities to provide high-value-added solutions, including new products and new services, based on the Group's technical capabilities
- Promote teamwork among sales, design and production units to improve cost of sales through normalization and standardization
- Localize design, procurement and installation management

5. Initiatives by Overseas Region

Initiatives to Enhance Profits by Region

China / South Korea

- Bolster collaboration with Kurita Water Industries (Suzhou) Ltd., Kuritec (Shanghai) Co., Ltd., and Hansu Technical Service Ltd.
 - Expansion of the maintenance service business, such as consumables, standardized systems, and renovation work

Taiwan

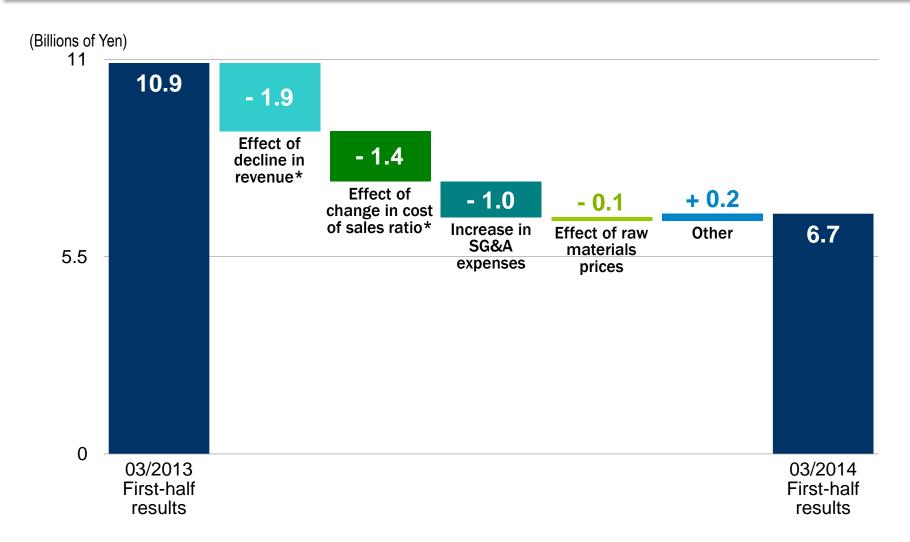

- Launch joint project by sales division and production division aimed at reducing costs of facilities
 - Quickly standardize, localize, and bolster purchasing power to become more competitive than other companies

Southeast Asia

- Place an oversight executive officer in Singapore, strengthen teamwork among business locations and leverage synergies among chemicals, facilities, and maintenance services
- Enhance and improve the frameworks of business locations in the region
- Concentrate production of each business location's successful products, purchase raw materials in bulk, and utilize employees assigned from Japan and local staff within the region

Analysis of Changes in First-half Operating Income for the Fiscal Year Ending March 31, 2014

^{*}The effects of decline in revenue and change in the cost of sales ratio are calculated using the gross profit margin.
