

FOR IMMEDIATE RELEASE

## **Kurita Water Industries Reports Earnings for the Three Months Ended June 30, 2022**

Tokyo, Japan, July 29, 2022 - Kurita Water Industries Ltd. (the “Company”) (TSE Securities Code 6370) announced net sales of 74,660 million yen and profit attributable to owners of parent of 4,865 million yen, or 43.29 yen per share, for the three months ended June 30, 2022 (April 1, 2022 - June 30, 2022).

### **Results of Operations**

Total consolidated orders for the Kurita Group (the “Group”) in the three months ended June 30, 2022 rose 29.0% from the level of the year-ago period, to 100,109 million yen, and net sales increased 18.1%, to 74,660 million yen. Business profit\* increased 7.6%, to 6,321 million yen, operating profit was 6,378 million yen, up 9.7% versus the year-ago period, profit before tax was 7,325 million yen, rising 30.1%, and profit attributable to owners of parent amounted to 4,865 million yen, up 30.1%.

In the first quarter under review, the Company underwrote a capital increase at Kurita America Holdings Inc. to help it acquire additional shares in US-based subsidiary Pentagon Technologies Group, Inc. (Water Treatment Facilities business) (and make it a wholly owned subsidiary) and completed the payment. The significant increases in profit before tax and profit attributable to owners of parent reflect a gain on derivatives transactions of 1,090 million yen, which was posted in finance income, from a foreign exchange contract the Company entered into after deciding to underwrite the capital increase.

In the first quarter under review, the global economy was recovering moderately. However, uncertainty increased, reflecting continued disruption in supply chains and sharp rises in prices of raw materials and energy chiefly due to an increase in geopolitical risk and the resurgence in COVID-19 cases. Production activities in the manufacturing industry in Japan were weak in certain sectors chiefly due to constraints on the supply of raw materials caused mainly by semiconductor shortages and lockdowns in China, but there remained signs of a recovery in capital investment. Overseas, the U.S. economy was firm, and there were signs of a recovery in Europe and Asian countries excluding China. Meanwhile, the Chinese economy slowed due to lockdowns and movement restrictions to block the spread of COVID-19.

In this environment, the Group stepped up initiatives to propose total solutions that would help solve customer issues such as the reduction of the environmental impact, including water saving, the reduction of CO2 emissions and waste reduction, and an improvement in productivity, while expanding the CSV (creating shared value) business based on a deep understanding of social and customer issues, aiming to address climate change and create value shared with society.

\*Business profit is the Group’s own indicator that measures constant business performance. It is net sales less cost of sales and selling, general and administrative expenses. Although business profit is not defined by IFRS, the Group voluntarily discloses it, believing that it is beneficial for users of its financial statements.

### **Segment Information**

The Group consists of two reportable segments in its segment information: Water Treatment Chemicals and Water Treatment Facilities.

#### **Water Treatment Chemicals**

Total Group orders for the Water Treatment Chemicals segment were 33,699 million yen, up 15.3% versus the year-ago period, while net sales rose 16.4%, to 32,465 million yen.

In terms of profits, business profit amounted to 3,427 million yen, an increase of 5.9% year on year, and operating profit rose to 3,646 million yen, up 12.9% year on year, chiefly due to an increase in net sales, which more than offset a rise in raw materials costs and other expenses.

In Japan, orders remained flat, reflecting the absence of orders for large one-time projects posted in the same period of the previous fiscal year. Net sales rose.

Overseas, both orders and net sales increased, reflecting sales price increases in response to sharp rises in raw materials prices and logistics costs and an increase in results in yen at overseas subsidiaries due to the weaker yen.

### **Water Treatment Facilities**

Total Group orders for the Water Treatment Facilities segment were 66,410 million yen, up 37.3% versus the same period of the previous fiscal year. Net sales increased 19.5%, to 42,194 million yen.

In terms of profits, business profit amounted to 2,892 million yen, an increase of 9.1% year on year, and operating profit rose to 2,732 million yen, up 5.4% year on year, chiefly due to an increase in net sales.

In Japan, both orders and net sales of water treatment facilities for the electronics industry increased due to the posting of orders for large projects and sales from the order backlog. Orders and net sales for maintenance services for the industry both increased, reflecting the expansion of facilities and the posting of orders for and sales from repairs, including the replacement of consumables, against a backdrop of firm capacity utilization at customers' plants.

Orders and net sales of water treatment facilities for general industries both increased. Orders and net sales of maintenance services for the industry both increased because of the recovery in maintenance demand. Orders for water treatment facilities for the electric power industry remained flat. Net sales fell as the posting of sales from large projects had run its course. Orders and net sales of soil remediation services increased, reflecting demand for small and medium-sized projects.

Overseas, both orders and net sales increased due to an increase in results in yen at overseas subsidiaries associated with the weaker yen, the posting of orders and sales of large water treatment facilities projects in the electronics industry in East Asia and an increase in sales of tool cleaning services.

Total net sales in the ultrapure water supply business in Japan and overseas increased mainly due to the contribution of a contract that began in the previous fiscal year.

### **Financial Condition**

Condition of assets, liabilities and equity

1) Total assets: 482,337 million yen, an increase of 12,356 million yen from the end of the previous fiscal year

Current assets totaled 177,453 million yen at the end of the first quarter, a decrease of 943 million yen from the end of the previous fiscal year. This was mainly due to decreases in other current assets and trade and other receivables of 2,942 million yen and 869 million yen, respectively, offsetting an increase in inventories of 2,711 million yen.

Non-current assets totaled 304,883 million yen at the end of the first quarter, an increase of 13,298 million yen from the end of the previous fiscal year. Property, plant and equipment increased 6,574 million yen chiefly due to the acquisition of new facilities in the ultrapure water supply business (Water Treatment Facilities business), and goodwill rose 5,902 million yen due to the weakening of the yen against other currencies.

2) Liabilities: 194,231 million yen, an increase of 2,112 million yen from the end of the previous fiscal year

Current liabilities totaled 106,150 million yen at the end of the period, a decrease of 7,777 million yen from the end of the previous fiscal year. This is chiefly attributable to a decrease of 19,613 million yen in other financial liabilities due to the implementation of the forward contract concluded with the non-controlling shareholders of US-based Pentagon Technologies Group, Inc. (Water Treatment Facilities business) and decrease in trade and other payables and income taxes payable of 5,379 million yen and 5,103 million yen, respectively, which were partially offset by an increase of 22,735 million yen in bonds and borrowings chiefly due to the issuance of commercial paper.

Non-current liabilities totaled 88,080 million yen at the end of the period, an increase of 9,889 million yen from the end of the previous fiscal year. This principally reflected an increase in bonds

and borrowings of 9,947 million yen mainly due to the issuance of the second series of unsecured bonds (10,000 million yen).

3) Equity: 288,106 million yen, an increase of 10,244 million yen from the end of the previous fiscal year

This was attributable chiefly to an increase of 9,732 million yen in other components of equity mainly due to the posting of exchange differences on translation of foreign operations, reflecting the weakening of the yen against other currencies.

### **Cash Flows**

Consolidated cash and cash equivalents at the end of the first quarter (June 30, 2022) totaled 45,472 million yen, a decrease of 258 million yen from the end of the previous fiscal year (March 31, 2022).

The various cash flows and related factors are outlined below.

#### 1) Cash Flows from Operating Activities

Net cash provided by operating activities during the first quarter ended June 30, 2022 totaled 10,941 million yen, an increase of 6,844 million yen from the same period of the previous fiscal year. This was chiefly due to inflows from profit before tax of 7,325 million yen, depreciation and amortization of 6,839 million yen, and Other of 5,188 million yen, which were partially offset by outflows, including income taxes paid of 7,297 million yen. The inflow from Other was chiefly due to a decrease in consumption taxes refund receivable.

#### 2) Cash Flows from Investing Activities

Net cash used in investing activities totaled 16,554 million yen, an increase of 5,528 million yen from the same period of the previous fiscal year. Cash was used mainly for purchases of property, plant and equipment of 16,108 million yen.

#### 3) Cash Flows from Financing Activities

Net cash provided by financing activities totaled 4,760 million yen, an increase of 8,678 million yen from the previous fiscal year. Inflows chiefly from a net increase in short-term borrowings and commercial paper of 22,618 million yen and proceeds from the issuance of bonds of 9,955 million yen were partly offset by the purchase of shares of subsidiaries not resulting in change in scope of consolidation of 22,051 million yen and dividends paid of 4,072 million yen.

The Group's basic policy is to constantly secure the liquidity necessary for business operations and establish a stable funds-raising system. Short-term working capital is basically supplied by the Group's own funds. Capital investment and other investments in growth fields depend chiefly on the Group's own funds, but the Group considers financing through bond markets and bank loans as needed. As of the end of the period under review, the Group has concluded commitment line contracts with one financial institution (no borrowing executed and unexecuted borrowings within the commitment line was 20,000 million yen).

### Forecasts for the Fiscal Year Ending March 31, 2023

Of the Company's forecasts of consolidated results for the first half of the fiscal year ending March 31, 2023 and for the full year stated in the Earnings for the Fiscal Year Ended March 31, 2022, released on May 6, 2022, the Company revises the net sales forecasts for the first half of the fiscal year ending March 31 and net sales forecasts for the fiscal year ending March 31. In doing so, it takes into consideration an expected rise in net sales at overseas subsidiaries in yen because of the weaker yen, as well as expected sales from the large water treatment facilities projects for the electronics industry in Asia for which orders were received in the first quarter, which were not factored into the forecasts, to be recorded in or after the first six months of the fiscal year under review. The consolidated profit forecasts are left unchanged because of uncertainty about the effects of sharp rises in raw materials prices and in distribution costs worldwide.

Regarding the impact of COVID-19, while it is difficult to rationally estimate how COVID-19 will spread and when it will subside, the Company assumes that economic activities will normalize and the economy will recover moderately.

The business forecasts are made by the Company based on information available at the time of publication of this report and may differ from actual results due to changes in a range of factors.

#### Revision to the consolidated business forecast for the first half of the fiscal year ending March 31, 2023 (April 1, 2022 - September 30, 2022)

## Notes to Condensed Quarterly Consolidated Financial Statements

(Notes on the Going-concern Assumption)

Three months ended June 30, 2022 (April 1, 2022 - June 30, 2022)

Not applicable

(Segment Information)

(1) Overview of reportable segments

The Company's reportable segments are components of the Group about which separate financial information is available. These segments are subject to periodic review to enable the Company's board of directors to decide how to allocate resources and assess performance.

The Group plans comprehensive strategies for the products that it handles in Japan and overseas, and develops a business. The Group's operations are therefore classified into two reportable segments, the Water Treatment Chemicals segment and the Water Treatment Facilities segment.

The Water Treatment Chemicals segment manufactures and sells water treatment chemicals and equipment and provides maintenance services. The Water Treatment Facilities segment manufactures and sells water treatment system and facilities, supplies ultrapure water, chemical cleaning, tool cleaning, soil and groundwater remediation services, and provides maintenance services that encompass operation, maintenance, and management of water treatment facilities.

(Finance income)

Three months ended June 30, 2021 (April 1, 2021 - June 30, 2021)

Information is omitted because there were no important events.

Three months ended June 30, 2022 (April 1, 2022 - June 30, 2022)

In the first quarter under review, a gain on derivatives transactions of 1,090 million yen was recorded in finance income. This is income from a foreign exchange contract that the Company entered into after deciding to underwrite a capital increase in Kurita America Holdings Inc.

(Additional Information)

(Acquisition of additional shares in a subsidiary)

The forward contract on a share transfer concluded between Kurita America Holdings Inc. and the non-controlling shareholders of Pentagon Technologies Group, Inc. was implemented on June 30, 2022, and Kurita America Holdings acquired an additional 49% stake in Pentagon Technologies Group, Inc. As a result, Pentagon Technologies Group, Inc. has become a wholly owned subsidiary of the Group.

The value of additional shares acquired was 161 million US dollars (22,051 million yen). The amount is posted under the purchase of shares of subsidiaries not resulting in change in scope of consolidation in cash flows from financing activities in the condensed quarterly consolidated statement of cash flows. In connection with the posting of purchase of shares of subsidiaries, liabilities related to the forward contract concluded with the non-controlling shareholders posted as financial liabilities of 19,613 million yen in the previous fiscal year was eliminated, non-controlling interests declined 4,614 million yen, and the capital surplus increased 2,818 million yen.
